

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently amended) A cleansing pad comprising:
 - (a) a web of fibers forming a pad; and
 - (b) a solid cleansing agent pourable soap distributed substantially throughout said pad in a quantity sufficient for multiple uses of the pad in conjunction with a solvent that dissolves the solid cleansing agent pourable soap for cleansing purposes.
2. (Canceled).
3. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the pad comprises synthetic materials.
4. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the pad comprises naturally occurring materials.
5. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the pad is porous.
6. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the pad comprises a ~~substrate~~ non-porous substrate.

7. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the pad comprises a sponge.

8. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the pad comprises woven materials.

9. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the pad comprises non-woven materials.

10. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the weight ratio of cleansing agent to pad is between about 1 to 1 and 10 to 1.

11. (Currently amended) The cleansing ~~device~~ pad of claim 1 wherein the weight ratio of cleansing agent to pad is about 7 to 1.

12. (Currently amended) The cleansing ~~device~~ pad of claim 1 further including fragrances.

13. (Currently amended) The cleansing ~~device~~ pad of claim 1 further including colorants.

14. (Currently-amended) The cleansing ~~device~~ pad of claim 1 wherein the solid cleansing agent pourable soap ~~comprises a solidified soap~~ has a melting point ~~between~~ of from about 120°F to about 160°F ~~200°F~~.

Claims 15-26 (Canceled).

27. (Currently-amended) A method of manufacturing a cleansing ~~device~~ pad, comprising the steps of:

(a) providing a solid cleansing agent pourable soap that is in essentially solid form at a first temperature range of less than about 120°F, and in essentially pourable molten form at a second temperature range of from about 120°F to about 160°F;

(b) heating the solid cleansing agent pourable soap to within the second temperature range such that the solid cleansing agent pourable soap is a molten cleansing agent in pourable molten form;

(c) applying the molten cleansing agent to one or more portions of a web of fibers that forms a substrate; and

(d) allowing the molten cleansing agent to cool down to within the first temperature range to resolidify on the substrate.

Claims 28-56 (Canceled).

57. (New) The cleansing pad of claim 1 wherein the solid cleansing agent pourable soap is in essentially solid form at a first temperature range of less than about 120°F and is in essentially pourable molten form in a second temperature range of from about 120°F to about 160°F.

58. (New) The cleansing pad of claim 57 wherein the second temperature range at which the solid cleansing agent pourable soap is in essentially pourable molten form is from about 120°F to about 160°F.

59. (New) The cleansing pad of claim 1 wherein the solid cleansing agent pourable soap consists essentially of natural soap.

60. (New) The cleansing pad of claim 1 wherein the solid cleansing agent pourable soap consists of natural soap.

61. (New) The cleansing pad of claim 1 wherein the solid cleansing agent pourable soap is essentially not comprised of synthetic detergents.

62. (New) The cleansing pad of claim 1 wherein the solid cleansing agent pourable soap is not comprised of synthetic detergents.
